

## **FALL MEETING PRESENTATION PROPOSAL FORM**

If you are interested in presenting, **please complete the following form by July 20th**. The committee will select presenters and everyone who submits will be notified by August 10th. You can simply copy and email this form or its information to [Anthony.vannozzi@maine.edu](mailto:Anthony.vannozzi@maine.edu).

If you want to discuss/brainstorm an idea to see how it might fit in, please reach out to Rich Vannozzi at [Anthony.vannozzi@maine.edu](mailto:Anthony.vannozzi@maine.edu).

Presenter Name:

Address, email address, phone number:

Project Location (NOTE: presenters can scrub presentations of identifying, unnecessary or confidential information if they prefer)

Street Address:

Town, County:

Was this project the subject of litigation, (Y/N) and if yes, has the litigation ended (Y/N)?

Please describe in a paragraph the project and the key points that would make it interesting to Maine practitioners:

*Sample proposal: 30 years ago, my client had built a fence that included land that his neighbor owned and my client filed a claim in court. During discovery, the neighbor was adamant that he gave my client verbal permission to build the fence 30 years ago. It got interesting from there!*

Please feel free to attach a document or two that might help selection committee understand your proposal. This should not be a complete dossier but rather maybe a single plan or sketch or deed that helps understand the above paragraph.

*Sample response: Attached is the plan that was agreed to in court showing the location of the fence relative to the record boundary lines.*

Please identify one or two key of your takeaway lessons after completing the project that you would want the audience to understand:

*Sample response: This project was interesting because it was clear that the case hinged on whether the use was permissive or adverse and how the court treated the evidence and different beliefs regarding the fence.*

**THANK YOU!**
